

Map 610 Submitter Comments

My primary focus is on my proposal for District I, as it is the area (community) that I have lived in for more than 30 years. The proposed District I (community) should be maintained as a whole because of the following common interests, economic patterns and environmental values shared among members of this community. The Wetlands, open space and wildlife are of environmental value and interest to members of the community. The proposed Bay Trail project is of interest to members of the community. The manner which the City of Vallejo Landscape Maintenance District (LMD) manages and (insufficiently) informs the community about the Sandpiper Point LMD and other LMD landscaped areas are of interest (concern) to members of the community.

Located in northwest Vallejo, away from mainstream Vallejo, the developmental opportunities under Vallejo General Plan 2040 Land Use Designations (referenced as District-North Gateway) including the development of vacant and underutilized real estate along Sonoma Blvd/Hwy 29 beyond Hwy 37 are of interest (concern) to members of the community. Management oversight, and representation of a community that straddles three major travel corridors (Sonoma Boulevard / SR 29, SR 37, 1-80), borders American Canyon and acts as a gateway to Napa Valley, are of interest to members of the community.
